THE INTELLIGENCE OF NATURE AT YOUR HOME

3DCORK is a Portuguese Company owned by father and daughter who joined their skills and together started to build their dream, in 2006. Today from our facilities located in the North of Portugal we design, produce and send cork pieces to all over the world. Above all cork is our passion.

Cork is the bark part of the cork oak tree that grows in the Mediterranean basin namely in Portugal. The story of cork is a story of people and their love for the land and nature. It all starts in Alentejo, in the south of Portugal where the time runs slowly and the summer is yellow and hot. The harvest of cork in the end of the spring beginning of summer happens every 9 years and doesn't harm it but makes it to live healthier and longer.

We choose the best cork grains to create exquisite cork items that have on themselves all the ancient knowledge of cork and the design of our times. Cork is 100% natural, ecological and recyclable.
